

REACHING OUT

Waymakers Newsletter

Few months back we came to know about a family who is facing a devastating challenge. The father of this family had been diagnosed with cancer, and he had reached its 4th stage. The burden of medical expenses was heavy on them, as they required Rs. 20,000 every month only for his treatment and medicine. His son, a hardworking guy, working in a service center to support his family, while his wife dedicated her time to being a loving homemaker. His elder daughter took up the noble task of offering tuition classes to contribute to the family's financial stability.

In spite of their tireless efforts, meeting their daily needs had become a struggle for their family. The cost of medication and treatment left them with little to spare for groceries and other essentials. However, hope was not lost for this determined family, as there were people and organizations working to lend them a helping hand.

The Waymakers, came to know about this family through one of our dedicated group members. So, we decided to provide groceries for this family each month. With this support, they could now focus on battling cancer without worrying about their basic needs.

The money we raised through the Re.1 Survival Project, we used to buy groceries and provide for that family. We would like to thank you for your kind heart in helping with this project to support this family in need. We are hopeful that you will continue to do so.
